

Vision

Module 3: Part 1

ACCOUNTABILITY WORKS.

What is Vision?

- A thought, concept, or object formed by the imagination
- Unusual competence in discernment or perception; intelligent foresight
- The ability to think about or plan the future with imagination or wisdom

How we define Vision?

- What you want.
- Point B.

Where does Vision come from?

- Inner Eye
- Inner Ear
- Feeling
- Vision is distinct, it is not an energy like intuition.
- Where does the knowing come from?

Vision and the Principles

- Vision is a state
- Principles are properties of vision
- Commitment ignites it
- Example: Sports
 - Let the game come to you
 - Allow Vision to work through you

Vision and the Principles

- Vision acts as a lens we use to focus our intention and create our reality.
- Vision tells us what we are aiming for. It is our ability to see beyond today into tomorrow and to use commitment to get us there.
- The barrier between us and our Vision is always FEAR. Accountability is our tool for moving through fear.
- Vision holds the information for our growth which can include integrity, respect, personal responsibility.

Metaphors for Vision

- Personal Affirmation
- Mirror
- Map
- Destination
- Our life story or movie
- Our potential
